22	HUN	728	NO	FGF SAILING TEAM	Robert Bakoczy	5.08.2018	11:30

The schedule has been prepared according to your arrival dates announced by you last week.

The Measurement Schedule attached is preliminary and please let us know if you are not able to be measured at designated slots and we'll do our best to reschedule your slot.

Please respond to this e-mail by Tuesday, July 31 evening 21:00 CET at the latest saying

- Timing is OK
- I prefer another date
- I prefer the morning (specific time)
- I prefer afternoon (specific time)

After getting all you responses we'll send you amended schedule in the morning of August 2nd at the latest.

Sunday afternoon has been left empty because of some unforeseen cases and also because of the Practice Race.

In case your boat has been selected for a Full Inspection:

You are asked to move your boat close to the Measurement Area in Pala Vela (big exhibition hall next to the club) at the time and date indicated in the above. Minimum 3 crew members are requested to help during the inspection.

The inspection may include: boat weighing, appendages position and weighing, other measurements.

Please be ready to go under the crane as follow:

- the boat should stay on the trailer
- remove these equipment from the boat: sails, engine, bracket and fuel can, anchor chain and warp, manual bilge pump, bucket and lanyard, compass and timing devices if not permanently fixed
- dry the boat properly (the keel-crane slot too)
- the mast should be lowered on the boat
- the boom shall stay on the boat but ready to be taken off, we may need to measure it later
- Keel Crane is to remain on the trailer
- prepare straps; show these items to the Equipment Inspector, we need to calculate the tare
- the rudder complete with tiller should be on board, ready to be taken off, we may weigh it
- if the serial number of the fin keel is not visible, be ready to remove its head-plate and/or the derlin

In case of any questions, do not hesitate to ask the Chief Measurer Agnes Lill (in English) @ +372 5667 7232 or Chief Equipment Inspector Branko Parunov (English/Italian) @ +386 51 301 053

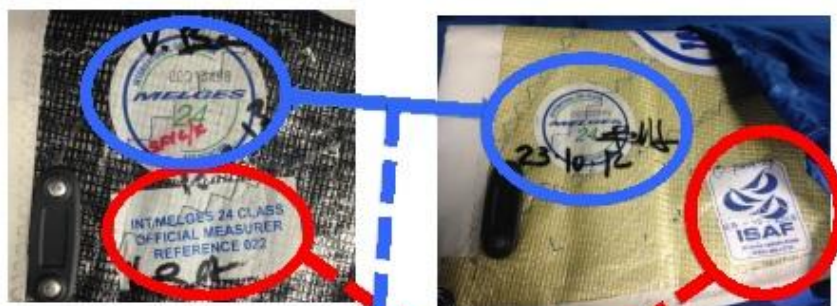

For the Sails Inspection:

The sails will be inspected in the Pala Vela building (big exhibition hall next to the club).

Sails shall be already certified: if not, they will be refused.

Be ready at your scheduled time with:

- a. The Sail Measurement Form properly filled (see drawing attached)
- b. The jib zip closed
- c. Jib battens removed from their pockets
- d. Wet sails will be refused!

Measurement Certificates:

In case you haven't yet, please send the Measurement Certificate of your boat to the e-mail of the IM24CA Administrator piret@melges24.com preferably before the registration starts (by Thursday, August 2nd evening). Also – please let me know if you have any question, problems, missing documents etc regards the Measurement Certificates. Let's solve them as shortly as possible.

If you have any questions about the measurement process, Event Chief Measurer Agnes Lill together with Chief Equipment Inspector Branko Parunov are willing to answer and help on spot.

Thanks a lot for your help and co-operation!
See you soon in Riva!
